

Red Panda Branch Hop

Become arboreal like our red pandas Tai and Terrai! Create a forest in your home and climb from tree branch to tree branch!

What you need:

- Painters or masking tape
- An open space to play
- Red panda tail and ears (optional)

Directions: Place the tape down in branch patterns. Leave gaps just like there would be between trees. Now let your little red panda try their hand at crawling and climbing on the limbs! Add in a game by freezing when there is a “predator” watching, then climbing when the predator looks away. Play pretend and have fun!
